

EXHIBIT 3
DATE 2-11-2009
HB HB 380

Members of the House Transportation Committee:

As owner of Triple W Equipment, a John Deere Dealer in Missoula & Kalispell, and member of the Montana Equipment Dealers Association I want to ask you to push for the passage of HB380. This bill allows our customers to license the Gator vehicle that comes from John Deere which right now cannot be done as it does not come with MSO. This bill basically reinstates a licensing process that worked well for us for many years and needs to be put back in place.

Thank you for your efforts,

Ken Williams
President
Triple W Equipment

HB HB 380

Chairman Sonju and Members of the House Transportation Committee,

I am writing to express my full support for HB380 to allow customers to title vehicles purchased that do not come with a MSO by purchasing a bond. Being able to do so will expedite the process for the customer and the dealers.
